

# **MysteryTwister C3**

THE CRYPTO CHALLENGE CONTEST

## **A DISGUISED CODE**

Author: M. Mertens

November 2023

# Introduction

This is a ciphertext-only challenge.

Just as it is unclear, for example, who is behind Shakespeare, it may initially be completely unclear which cipher was used to create a particular ciphertext.

Additional camouflage is also to be expected.

The plaintext is in English and consists only of letters.

Who or what is so unique here?

The solution consists of a single word in capital letters.
