A CRYPTO CHALLENGE BY CRYPTOOL

## KRYPTOS

A famous unsolved cryptogram

*Klaus Schmeh*

**Kryptos is a sculpture made by the US artist Jim Sanborn. It is located next to the headquarter of the CIA in Langley, VA.**

**An encrypted message was written on the sculptures. The message consists of four independent parts. The first three parts have been solved, but the fourth one has so far withstood every attempt at decryption.**

**More informationen is available at Wikipedia :
