

# **MysteryTwister C3**

THE CRYPTO CHALLENGE CONTEST

## **ENIGMA MESSAGES**

Author: George Theofanidis

January 2013

Alice sent a quote to some friends.

In order to increase the security, she encrypted the plaintext with different rotors and different initial settings each time using the Enigma simulator of CrypTool 1.4.x. She always used reflector B and no cables in the plugboard.

Eve managed to intercept these ciphertexts.

Assist Eve and find the English quote that Alice encrypted. Submit the first and second name of the person who said this sentence. Use only capital letters and separate the name and surname by one space.
