A CRYPTO CHALLENGE BY CRYPTOOL

CLASSICAL CIPHERS³

A challenge with three classical ciphers

Dr. Wacker

University Duisburg-Essen

Challenge overview

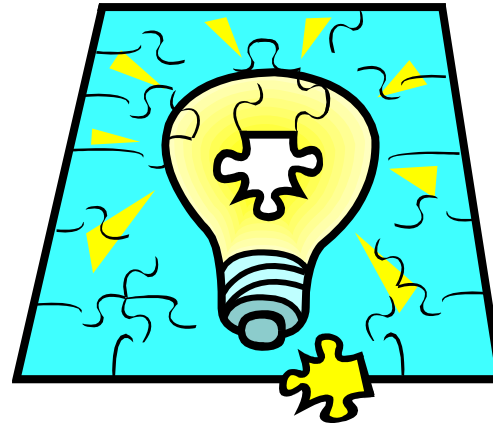

- There are three ciphertext-only challenge stages
- Try to break each code
- Take note of the “codeword” described in each stage
- Submit the codewords in the form:
 “codeword1-codeword2-codeword3”
- Note that codewords are case sensitive
- You have at most 5 attempts to submit the complete codeword
- Example:
 If you find the codewords “one”, “tWo”, and “THREE”, then you should submit your answer as:
 “one-tWo-THREE” (without the quotation marks)

Stage 1 – Caesar cipher

- Codeword: Third word of decrypted text.
- Ciphertext:
Donx dlqd kdqndod, orsxvvd nllwrv
vhlvrr.

Stage 3 – Unknown cipher

- Codeword:
Given in decrypted text, all upper-case
- Ciphertext:
UT-ZAH! CHA-GEE YIL-TAS SEIS
"TSAH WOL-LA-CHEE A-KEH-DI-
GLINI TSE-NILL AH-YA-TSINNE NE-
AHS-JAH" .

The MTC3 Team wishes you success!
